

# 2 REASONS WHY AMERICA NEEDS TO CUT OUT CARS

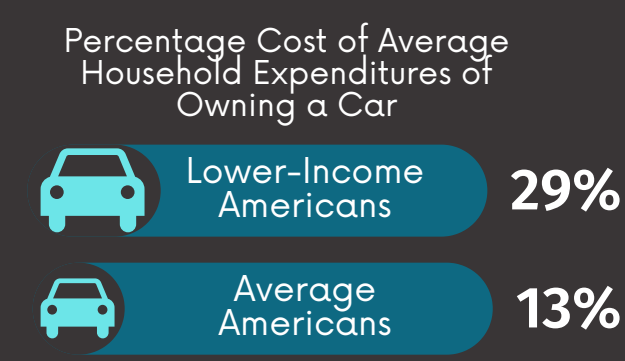

BY JACK PARR

Transportation  
29%

**1. Transportation accounts for 29% of all U.S. greenhouse gas emissions**

**1a. According to the International Panel on Climate Change, our world has less than seven years to address its climate catastrophe before it becomes irreversible.**

**2. Owning a car is costly, especially among lower-income Americans**

**2a. Specifically, the average american spends between \$150 and \$200 per month on gas.**
